13:00 – 17:30

This event marks the closure of the second funding phase of the National Center of Competence in Research (NCCR) on migration and mobility studies.

It serves as an occasion to reflect on the relationship between research and policy. After a keynote lecture, scholars and stakeholders discuss the role of scientific findings and scientifically based recommendations for migration policymaking in Switzerland and Europe, and the impact of social and political developments on migration- and mobility-related research.

The event will be closed by the awarding ceremony of certificates of the Doctoral Program of the nccr – on the move, followed by an apéritif.

During the breaks, participants can visit a poster exhibition presenting each Phase II project and take a quiz on migration and mobility.

The event is in English and open to the public. We are looking forward to seeing you in Neuchâtel on 6 July!
