NCCR Longitudinal Datasets: Exploring Valuable Insights

Philippe Wanner, University of Geneva, nccr – on the move
Lorenzo Piccoli, European University Institute, nccr – on the move
Didier Ruedin, University of Neuchâtel, nccr – on the move

12:15 – 13:45 h

This information session will be held on WEBEX ([link](#)). For any further information, please send an email to aldina.camenisch@unine.ch

Abstract

Are you a researcher or a practitioner focusing on the mobility of migrants and their integration in Switzerland? Perhaps you are interested in understanding international migration and mobility policy-making during the COVID-19 pandemic, or simply wish to explore how migration is discussed in public, policy and media spaces? If so, we invite you to join our engaging online information session where we will delve into our key longitudinal datasets!

The nccr – on the move is excited to offer you the opportunity to learn more about our invaluable datasets:

[Migration-Mobility Survey \(MMS\)](#)

[Citizenship, Migration and Mobility in a Pandemic \(CMMP\)](#)

[Support and Opposition to Migration \(SOM\)](#)

The MMS aims to provide a better understanding of migrant flows as well as their circumstances while living in Switzerland. Whereas the CMMP allows users to systematically track and compare public decisions in 204 countries to regulate human movement in response to the COVID-19 outbreak and the SOM looks at the politicization of migration in several European countries to determine why and when potential conflicts over migration become politicized, examining both anti-immigration and antiracist movements.

During the session, our Project Leaders Philippe Wanner (MMS) and Didier Ruedin (SOM) and Associate Researcher Lorenzo Piccoli (CMMP) will introduce these datasets and guide you on how to explore the wealth of data they contain. Additionally, they will be able to address any questions you may have.

Do not miss out on this chance to gain insights from these comprehensive sources of information. Join us during this enlightening session that will deepen your understanding of migration and mobility trends!
